### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

1. Upon considering the demonstration of common assignment of the instant application and the US patent 6,511,809, the suspension is terminated herein and the case is reopened for prosecution of the pending claims.

***Status of the application***

2. Claims 2-7, 13-15, 17-27 are pending. Claims 1, 8-12 and 16 are cancelled. Claims 14-15, and 25 are amended. All the arguments and amendment have been fully considered and found persuasive for the reasons that follow. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

3. The information Disclosure Statement filed on March 28, 2005 has been entered and considered.

***New issues***

4. Claims 2-7, 20, 23-27 are directed to an invention not patentably distinct from claims 1, 7, 21, 22, and 26 of commonly assigned US patent 6,511,809.

Specifically, the instant independent claim 25 recites a method for detecting the presence of one or more analytes in solution, comprising (a) binding two or more proximity probes to a respective binding site on said one or more analytes not immobilized on a solid support, wherein each proximity probe comprises a binding

moiety with affinity for said one or more analytes and nucleic acids acting as a reactive functionality coupled to the binding moiety, (b) allowing the binding moiety to bind to the one or more analytes other than by Watson-Crick base pairing and allowing the nucleic acids of the proximity probes to interact with each other if the probes are in close proximity to each other, and (c) detecting the degree of interaction between the nucleic acids, thereby detecting the presence of one or more analytes in solution. Further the dependent claims 2-7, 20, 23-24, 26-27 further define the limitations in the independent claim 25. The instant claim 25 in combination with the dependent claims 2-7, 20, 23-24, 26-27 entirely encompasses the subject matter of the patented claims 1, 7, 21, 22, and 26.

The U.S. Patent and Trademark Office normally will not institute an interference between applications or a patent and an application of common ownership (see MPEP Chapter 2300). Commonly assigned US patent 6, 511, 809, discussed above, would form the basis for a rejection of the noted claims under 35 U.S.C. 103(a) if the commonly assigned case qualifies as prior art under 35 U.S.C. 102(e), (f) or (g) and the conflicting inventions were not commonly owned at the time the invention in this application was made. In order for the examiner to resolve this issue, the assignee can, under 35 U.S.C. 103(c) and 37 CFR 1.78(c), either show that the conflicting inventions were commonly owned at the time the

invention in this application was made, or name the prior inventor of the conflicting subject matter.

A showing that the inventions were commonly owned at the time the invention in this application was made will preclude a rejection under 35 U.S.C. 103(a) based upon the commonly assigned case as a reference under 35 U.S.C. 102(f) or (g), or 35 U.S.C. 102(e) for applications pending on or after December 10, 2004.

***Response to Arguments:***

5. With regard to the rejection of claims 14-15 under 35 USC 112, second paragraph, Applicants' arguments and amendment are fully considered and found persuasive. The rejection is withdrawn herein in view of the amendment.

6. The Declaration submitted by the Applicants under CFR 1-132 has been fully considered.

7. With regard to the rejection of claims 2-7, 13-15, 17-27 under 35 USC 103(a) as being unpatentable over Landegren in view of Ebersole et al., Applicants' arguments, the declaration under CFR 1.132 and amendment have been fully considered and the rejection is withdrawn herein in view of the amendment and the declaration.

***Conclusion***

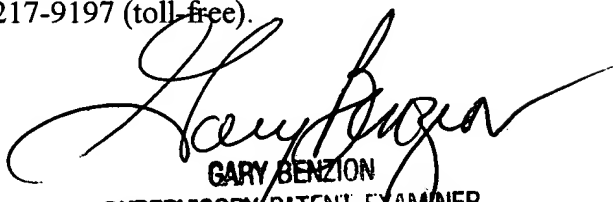

No claims are allowable.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Suryaprabha Chunduru whose telephone number is 571-272-0783. The examiner can normally be reached on 8.30A.M. - 4.30P.M , Mon - Friday,.
